Dear Teachers and Students

Thank you so much for the fantastic donation of £1,345.95 raised from your fundraising events, on behalf of Orchid. I do hope that everyone enjoyed the events which have raised such a fabulous amount and we are incredibly grateful for your support over the last two years. Please find enclosed a certificate that you may want to display so your students can feel very proud of themselves.

I know that you are aware but just to reiterate, Orchid is the UK's leading charity working on behalf of anyone affected by or interested in male cancer – prostate, testicular and penile cancer. Every year over 50,000 men's lives are turned upside down and we are determined to help all those affected. We work in three areas: we fund pioneering research to identify new ways to treat male cancer and improve our understanding of how these cancers work. We run education and awareness programmes, Roadshows, health sessions and campaigns such as the annual Orchid Male Cancer Awareness Week. We offer a range of support services including specialist Male Cancer Information Nurses, a freephone Male Cancer Helpline, leaflets and factsheets, a testicular cancer microsite "Your Privates" and counselling service and a website. We rely on voluntary donations and grants from Trusts and Foundations so your support is very much appreciated.

Once again thank you so much for supporting Orchid and please let us know if we can provide you or any other groups you may know of, with our free information materials to help raise awareness of these male cancers.

With very best wishes
Yours faithfully

Ms Emma Hurrell
