Description of task/activity	Area	Persons exposed eg staff, pupil, visitor etc
<p><b>School bus arrival</b> – approx. 8.20am-8.45am</p> <p>11 buses ferrying pupils to the College. This risk assessment details the hazards involved with the final stage of their journey and highlights various control measures in place to deal with such issues, as well as potential solutions to reduce the risk of harm to persons even further.</p> <p>This is a procedure which could see potential harm to any and all persons involved. It is therefore essential that the persons charged with co-ordinating this task are made familiar with the safe working procedure so as to minimise the likelihood of any incidents that may or may not arise.</p> <p>Please see safe working procedure for bus/coach arrivals/departures.</p>	Front of School	Pupils Parents Staff Visitors Bus drivers

**Likelihood/Severity Risk Rating Chart**

		Severity				
		Nil 1	Minor 2	3-day 3	Major 4	Fatal 5
Likelihood	Very likely 5	5	10	15	20	25
	Probably 4	4	8	12	16	20
	Possible 3	3	6	9	12	15
	Remote 2	2	4	6	8	10
	Improbable 1	1	2	3	4	5

**Guidance for completion**

- review how the activity is, or is going to be, undertaken;
- consider each step in the task, observing how the task is undertaken if possible;
- consult personnel who are involved;
- consider any relevant existing documentation that may have a bearing on your assessment (e.g. documented procedures and policies, equipment used for task, chemicals, substances employed, services used (electricity, gas, compressed air etc.) or maintenance procedures);
- assess the likelihood & severity and calculate the overall risk rating and colour code the boxes;
- if no hazards are rated greater than five (5) then the risk assessment is complete;
- if there are hazards with a risk rating of greater than five (5) then consider additional risk control measures to reduce the risk level & recalculate the risk level.
